Zippo MPL [Multi-Purpose Lighter]

Its multi-purpose applications make the Zippo MPL a necessity. Whether at home, at a barbecue, for candles or the fireplace or on the road camping, the Zippo MPL quickly becomes an indispensable companion.

For this reason, its variable applications make it the perfect gift for everyone. And the best thing is – the Zippo MPL brings along its own quality gift box.

As always, it's the little details that set Zippo above the rest. The unique two-button ignition of the Zippo MPL ensures a high level of safety and easy operation.

In the tradition of Zippo pocket lighters, the case of the Zippo MPL is brass plated. This makes the Zippo MPL exceptionally durable. The combination of high-quality materials and the ergonomic, yet stylish design makes the Zippo MPL fit comfortably into your hand.

The flame height is adjustable for different applications.

One fill of Zippo Premium Butane Gas is enough for approximately 400 lights. The big fuel level window shows the gas supply at all times.

The retractable hanger keeps the Zippo MPL at hand wherever you use it ... in the kitchen, at the fireplace, or ...

Dieses völlig neue Herstellungsverfahren bei Zippo ermöglicht eine Rauheif-ähnliche Oberfläche im geätzten Design. Der beeindruckende Kontrast zwischen dem geätzten Motiv und der Oberflächengüte des Feuerzeugs erzeugt eine ungewöhnliche dreidimensionale Tiefe.

La surface de style givré est née du tout dernier processus de production chez Zippo. Le contraste impressionnant entre l'apparence corrodée et la qualité de surface du briquet génère une profondeur tridimensionnelle inhabituelle.

Voortvloeiend uit het nieuwste productieproces bij Zippo ontstond een rijp-achtig oppervlak in het geëtste design. Het fraaie contrast tussen de geëtste afbeelding en de oppervlaktekwaliteit van de aansteker geeft ieder motief een uitzonderlijk dimensionaal uiterlijk.

Zippo records indicate an overlap of bottom stamp configurations from 1949-1957. Also some lighters produced between 1955-57 were date coded, however, specifics remain unclear.

The Zippo script logo was developed in the late 40's and was phased-in on the lighter bottom stamp around 1955.

An error was made in the date code. One of the slash marks was removed from the left of the Zippo trademark instead of being removed from the right; thus the code read: // / . This date code error was corrected within the same year to read: // /

In the late 70's the logo was redesigned. It was incorporated into the bottom stamp in 1980.

SLIM LIGHTERS

Slim lighters were first introduced in 1956, with a flat bottom and no date code. The first markings were added in 1957 and overlapped into 1958. From 1957-1965 the code configuration on the slim lighters differed from the regular lighters. From 1966 on, the configuration has been the same.

Solid Titanium

The case of this lighter is made of Grade One commercially pure titanium. Shot blasting the case with a fine aluminium oxide media produces the rugged finish. Natural oils from using and handling the lighter will create color variations in the finish, giving each lighter a distinctive look. An exclusive bottom stamp authenticates this lighter as solid titanium.
