I live in Leeds in the beautiful county of Yorkshire, in the United Kingdom, with my husband Ralph, young son Leo and spinger spaniel Obi. I have been a full time artist for about 12 years. Ever since I was a child and my father read me *The Hobbit*, I loved the world of fantasy. It is wonderful to be able to work as an artist and share my visions of fantasy worlds and characters with other people.

I have produced a lot of artwork for clients in the games industry, including illustrations for *Wizards of the Coast's Dungeon and Dragons* rule books and miniatures.

Wer kennt es nicht, das Feuerzeug mit dem charakteristischen Click, das immer funktioniert? Aber wissen Sie auch, wie der Zippo Lighter seinen Namen bekam? Bei der Namensgebung ließ sich der amerikanische Unternehmensgründer George G. Blaisdell von einer anderen Erfindung seiner Zeit inspirieren – dem Reißverschluss. Er mochte den Klang des Namens „Zipper“ und nannte sein Feuerzeug einfach „Zippo“.

Don't we all know it – the Zippo cigarette lighter with the characteristic click that always works? But do you also know how the Zippo lighter got its name? For finding a name, the American company founder George G. Blaisdell let himself be inspired by another invention of his times – the zipper. He liked the sound of that word – and simply called his invention zippo.

As with most collectibles, the date of manufacture of a Zippo lighter often affects its value. Valuable information on the bottom of every Zippo lighter can help you determine its date of manufacture. Most lighters fabricated between 1933 and 1957 can be identified by style and model and the patent or patent-pending marks. Starting in the mid 50's date codes were stamped on the bottom. The original purpose was for quality control. The date codes have since become an invaluable tool for Zippo collectors. The appearance of the word "Zippo" in the bottom stamp provides another clue to dating. There have been three major changes, as shown below.

From 1933 to the mid 50's the word Zippo was stamped in block letters.

ZIPPO

| | |
|-----------------|---|
| 1933 | Patent Pending |
| 1937 - c.1950 | Patent 2032695 |
| 1942 - 1946 | Black Crackle, Patent 203695. (This number was stamped in error, should have been Patent 2032695) |
| c.1950 - c.1957 | Patent 2517191 |
| c.1950 - c.1957 | Patent 2517191 with patent pending |

Zippo records indicate an overlap of bottom stamp configurations from 1949-1957. Also some lighters produced between 1955-57 were date coded, however, specifics remain unclear. The Zippo script logo was developed in the late 40's and was phased-in on the lighter bottom stamp around 1955.

An error was made in the date code. One of the slash marks was removed from the left of the Zippo trademark instead of being removed from the right; thus the code read: !|. This date code error was corrected within the same year to read: !!

In the late 70's the logo was redesigned. It was incorporated into the bottom stamp in 1980.
