

ZIPPO

2021 Zippo Collection

2021 Zippo Collection

The dawn of the third decade of the new millennium brings you exciting updates and innovations from Zippo. From the highly anticipated butane torch and rechargeable arc lighter insert accessories, to rechargeable arc candle lighters, and an ever-expanding range of vibrant base models, Zippo continues to innovate the products and display options that consumers notice and give Zippo retailers the sales edge.

As part of Zippo's continuing evolution and expansion, we are proud to unveil a new Zippo logo used in consumer communications as part of the company's complete brand visual identity update.

Our new visual identity captures the brand in a cohesive and powerful design. It sets Zippo apart from our competitors and is a lasting, memorable and compelling signpost for our fans and customers. A collection of individual elements – from our new communications logo, color palette, typography and photography, to our dynamic and customizable 'Z' device – our identity embodies the individuality inherent in our products and acts as a vibrant and dynamic canvas for our brand.

Packaging

Unless otherwise stated, every Zippo windproof lighter in this catalog is packaged in the giftable standard "one box." The "one box" is attractive, easy to handle and designed to fit in every Zippo display. Other packaging types are displayed below. Look for the corresponding icon to see which product comes standard with that package style.

One Box* 

1935 Replica*

* Fits in every Zippo display.

ZIPPO

540° Color

Immersive, vivid, durable designs are the new frontier of Zippo's unparalleled decorative abilities. Zippo's new 540 Color process allows for complete coverage of the lighter's surface with precision artwork. Hinges and bottom stamps are laser engraved to allow for peak performance and easy date stamp verification, but otherwise every single nanometer of the lighter's surface can be covered by this resilient new process.

Texture Print

Zippo's texture printing process brings designs to life with vivid coloring and irresistible 3D texturing, durably adhered to the surface of our lighter cases. Special designs emerge in 3D, they can be seen and felt on our lighters. Don't just take our word for it, feel it yourself!

Fight Fire with Fire

Zippo has partnered with WOODCHUCK USA to create wooden laser-cut emblem designs that will help restore and protect the forests of the world.

Through the **Buy One. Plant One.**® initiative, for each lighter purchased, a tree is planted. Each one comes with a unique code that you can use to learn about your tree, its location, and the direct impact you're having on the planet.

To learn more about the positive impact of each Woodchuck lighter sale and the global media attention Zippo has earned from this program, visit zippo.com/buyoneplantone.

Customizable

Contact your sales associate for details on how to have a custom Woodchuck USA design created through a Design Center visit.

Note: Variations in the woodgrain and color make each Woodchuck USA lighter unique. Because each piece is made from natural materials, your design might not look exactly as depicted. The woodgrain material is also susceptible to staining over time.

Spazuk

World-renowned master of the fumage technique, Steven Spazuk, creates dreamlike yet highly detailed images by holding flame to paper and etching into the resulting soot. His creations emerge from a haze, juxtaposing manmade objects with nature's beauty and resilience.

Artwork created with a Zippo lighter, now available as a lighter design.

German Designs

Zippo lighters – originally from the US – found their home in Germany. What does home mean? To feel at home, to know the people and the country in which you live. This includes the history of a country as well as its traditions. Our Zippo lighter collection takes up this idea in its designs. The GDR, former part of Germany, became fundamentally important in German history. Same applies to the world known German craftsmanship. The country of craftsmen follows a great tradition which we are honoring with our emblems of craftsmen's guilds. Moreover, we are honoring the brave heroes amongst us, our firefighters, protecting lives and fighting fire.

Vintage Lighters

Vintage Lighters

There's Nothing Old About Zippo Vintage

The success of Zippo's 50th anniversary commemorative lighter in 1982 was a strong indicator that Zippo customers and collectors were receptive to the addition of more vintage-style lighters to the product line. Zippo Vintage lighters were introduced in 1985, designed after a similar Zippo lighter created in 1937.

Distinctive features:

- Five-barrel hinge that joins the lid and the bottom; same as current Zippo lighter.
- Sides of the unit are flat, with rounded corners and edges replacing the 1935 square case.
- Flat bottom and top case with current bottom stamp.

Pipe Lighters

The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof lighter, but designed for the special needs of pipe smokers.

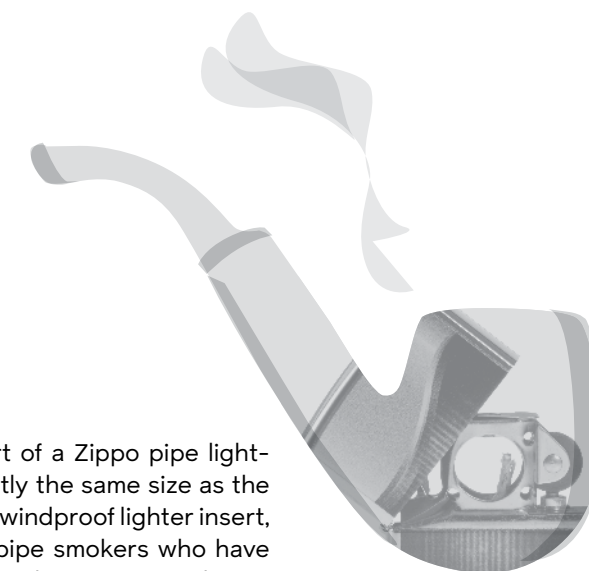

The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe.

60.001.199 | 46,95 €

Flex Neck Utility Lighters

- Available in two finishes; satin silver and rubberized flat black Rugged metal construction
- Advanced ignition system
- Adjustable butane flame
- Safety button

Grills, lanterns, tiki torches and fireplaces all require a certain degree of precision when being lit. And that's where the Flex Neck Utility Lighter comes in.

It's slim, powerful nozzle easily fits into the openings on most grills and lanterns, and with wind-resistant dual-flame technology, it's ideal for any outdoor setting.

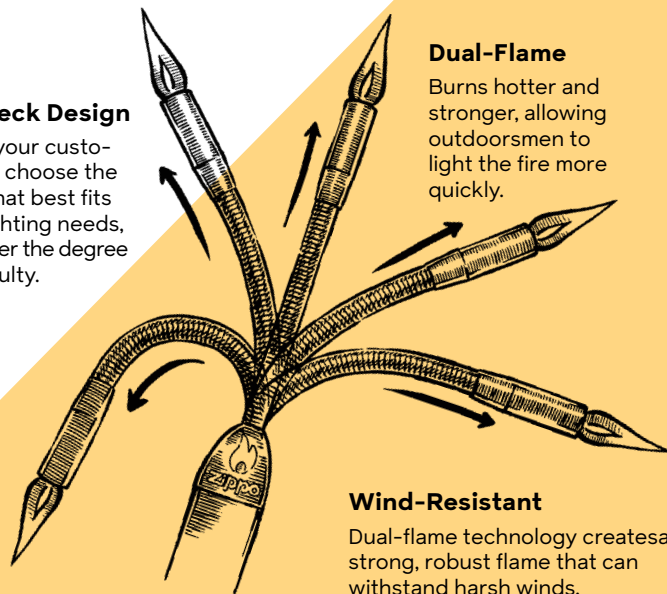

Wind-resistant dual-flame technology, flexible extended neck, topped by a slim, powerful nozzle, easily fits all lighting openings.

Flex Neck Lighter comes unfilled

Flex Neck Design

Allows your customers to choose the angle that best fits their lighting needs, no matter the degree of difficulty.

Dual-Flame

Burns hotter and stronger, allowing outdoorsmen to light the fire more quickly.

Wind-Resistant

Dual-flame technology creates a strong, robust flame that can withstand harsh winds.

Rechargeable Candle Lighters

Zippo has combined the functional elegance of our flex neck candle lighter with the latest, most convenient technology in the new rechargeable candle lighters. Instead of a butane flame, the new candle lighter unleashes a small but powerful plasma arc to quickly ignite even the lowest burnt candle. After 40+ (approximate) ignitions, the new candle lighter can be easily recharged with the included USB cord. Available in three on-trend colors for a lighter you can keep on the mantle and out of the junk drawer.

Available in select countries, some restrictions apply.

HAND WARMERS with Easy Fill Technology

Our new and improved filling process makes firing up these little pocket-sized furnaces easier than ever. Fill the cup. Light the burner. And go! They provide up to 12 hours of gentle, consistent heat. And they're odorless. So the only thing that stinks is the alternative to not using them - frozen fingers.

Imprint Methods

Methods available to customize Zippo product.

Classic Finishes

- Plated
- Powder Coat
- PVD Finish
- Translucent Powder
- Antique

Signature Custom Imprint Methods

Auto Engrave

The crisp, clean jewelry look of auto engraving has become one of the most popular methods of customization. Skilled operators use either rotary engrave or diamond cut method to inscribe an image into the product using creative fill patterns. A dimensional effect can be achieved by using directional fill patterns. Also known as Rotary Engraving or Computer Engraving.

- Standard imprint charges
- Not available on powder coat and translucent finishes
- Available on sterling silver and solid gold
- Minimum quantity required
- Lid line adjustment may be made
- May require additional lead times

Laser Engrave

This state-of-the-art process allows Zippo tremendous flexibility when reproducing your artwork on our products. Our laser engravers are computer programmed to generate an accurate replication of your imprint. Also known as Laser Mark.

- Standard imprint charges
- Minimum quantity required
- Multiple surfaces available
- Shows great contrast

Color Image

State-of-the-art printing method allows Zippo to imprint multiple spot colors or full-color photographic representations. Spot colors can be matched to PMS colors and used for one, two, or three-color simple logos. Previously known as surface imprint.

Previously known as surface imprint.

- Zippo will accept vector artwork files (Adobe Illustrator) in these formats: .ai, .eps, .pdf (provided entire contents of file are vector). Zippo can also imprint artwork in full color or a photographic representation. Previously known as 4-color process pad print.
- Zippo will accept raster artwork files (Adobe Photoshop) no less than 1.5" wide by 2.25" high with a resolution of 600 DPI (dots per inch). Acceptable formats include .psd, .tif, .eps, .jpg (provided the resolution is high enough). Any file requiring background isolation must have paths or a layered file with transparent background included.

- Standard imprint charges
- Not available on precious metal finishes
- Minimum quantity required
- Special art requirements/high resolution photo required to be reviewed by the Design Center

All color imprinting will now be run using the color imaging method.

Premium Custom Imprint Methods

All models below require special handling due to the unique processes and methods on each piece. Several model styles below require minimum quantities, tooling charges, special lead times, as well as specific art files. Contact your Zippo sales representative for more information.

Lustre

Zippo's signature lustre etch method produces an attractive, durable imprint. The artwork is etched into the lighter and plated for a permanent mark. A beautiful contrasting effect is created.

Double Lustre

The design is double etched into the lighter. This layered process displays a multi-dimensional effect. A portion of the design will be chromed out for impact.

Fusion

A combination of specific pre-determined color palettes and chrome breaks create an iridescent, metallic look.

- Restricted to models 250, 167, 260, 1654B, 1610, 254B, 24750.
- Art constraints apply

Auto Two-Tone

Contrast is achieved when Zippo engraves in two different depths. Vibrant chrome and brass engraving allows for a "gold and silver" effect.

- Some model restrictions apply
- Art constraints apply
- Available on 200, 205, 207, 24647, 24648, 28181, 28182
- Cannot pass thru lid line

Laser Two-Tone

Zippo's lasers can be programmed utilizing two different depths, creating a unique contrast within the image.

- Restricted to models 150, 151, 200, 205, 207, 250, 20446, 24647, 24648, 24756, 28181, 28182, 20053
- Cannot pass thru lid line

Note: Gold color is the 2nd tone.

Photo Image

The creation or manipulation of photographic images by electronic or digital means. The image is then laser engraved onto many different finish options with pin sharp resolution.

- Model restrictions apply
- Special art requirements/high resolution photo required to be reviewed by the Design Center
- Standard imprint charges apply

Stamping

Image is debossed into the case, creating a 3D design.

- Now shown on #28994
- Art constraints
- Tooling charges and minimum quantities may be required

Emblem

Image is die struck onto various metal substrates such as brass, aluminum, and pewter.

- Art constraints
- Additional lead times required
- Tooling charges and minimum quantities may be required
- Contact sales rep for details

Laser 360°

Precision layers engrave 360° seamlessly around any High Polish lighter case.

- Available on High Polish models only
- Some art restrictions may apply
- Design Center in-house visits only

Luxury Custom Imprint Methods

All luxury custom orders need to be routed through the Zippo Design Center.

Brite Cut

Limited to Armor® cases only, brite-cut engraving produces dazzling high and low facets, resulting in the dimensional look of a beautiful emblem directly on the surface of the lighter.

Deep Carve

Graphic is rendered in state of the art 3D software. A powerful milling machine accurately engraves deep contoured cuts into an Armor® case using many tool sizes, special buffing, and plating.

- Heavy Wall Armor® case only

Laser/Auto Engrave

Zippo can combine Laser and Auto Engrave processes to achieve a jewelry look.

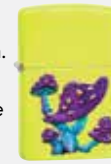

- Art constraints apply
- Some model restrictions apply
- Engraving can also be done on top of lasered area

Texture Print

Texture printing brings designs to life with brilliant color and irresistible dimensional 3D design.

- Model restrictions apply
- May require additional lead time
- Art restrictions apply
- Design Center in-house visits only

MultiCut

Powerful milling machines engrave deep contoured cuts 360° around the Armor® case leaving a high-end jewelry look. Special processing and finishing apply.

- Armor® case only
- Art restrictions apply
- Design Center in-house visits only

Laser Fancy Fill

Skilled designers enhance laser engrave by adding various directional fill patterns. A 3D effect is achieved through out this intricate design process.

- Model restrictions apply
- Not available on translucent powder coat or matte finishes
- May require additional lead time
- Standard imprint charges apply

Precious Metals

Special handling is needed when engraving precious metals.

- Sterling Silver and Solid Gold
- Limited customization options available

Stone Attachment

Zippo designers and engineers continue to develop special inlaid materials and stones to delight Zippo customers.

- Some restrictions apply

Epoxy Inlay

Clear, marbled or solid epoxies can be inlaid into deep cavities by highly skilled artisans.

- Lid line and size restrictions apply
- Special engraving can be designed under translucent epoxy for a luxury look.

Art Styles

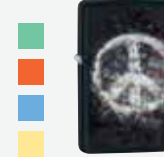

Chromed Out

When rendering art, an area of design is opened up displaying the base finish. No additional charge for this method.

Distressed

When rendering artwork, artists use a unique filter to give the art a pocket worn effect.

Custom Art • Limited Editions • Exclusive Designs • Signature & Licensed Designs

Special event and/or anniversary designs can be supplied by the customer or created by Zippo artists. Personalization and consecutive numbering are available for an additional charge. Designs supplied by Zippo customers can be restricted to others. Must be discussed and approved through the Design Center. Signature and licensed designs must be processed and approved by our licensing department.

Call your sales representative for details.

Customer must sign an agreement stating they own or have rights to all custom artwork, and will indemnify Zippo for any infringement claim.

Zippo Guarantee

Any Zippo pocket lighter, when returned to our factory, will be put in first class mechanical condition free of charge, for we have yet to charge a cent for the repair of a Zippo pocket lighter, regardless of age or condition. The finish, however, is not guaranteed. This guarantee is additional to your statutory rights under national law.

ZIPPO, zippo, ARMOR, BLACK ICE, VENETIAN, are registered trademarks in the name of Zippo Manufacturing Company. The Multi-Purpose Lighter shape is a registered design. All Zippo lighter decorations are protected by copyright. © Zippo Manufacturing Company 2021.

As with most collectibles, the date of manufacture of a Zippo lighter often affects its value. Valuable information on the bottom of every Zippo lighter can help you determine its date of manufacture. Most lighters fabricated between 1933 and 1957 can be identified by style and model and the patent or patent-pending marks.

Starting in the mid 50s, date codes were stamped on the bottom. The original purpose was for quality control. The date codes have since become an invaluable tool for

Zippo collectors. The appearance of the word “Zippo” in the bottom stamp provides another clue to dating. There have been three major changes, as shown in inset. From 1933 to the mid 50s the word Zippo was stamped in block letters.

The Zippo script logo was developed in the late 40s and was phased-in on the lighter bottom stamp around 1955. In the late 70s the logo was redesigned. It was incorporated into the bottom stamp in 1980.

- ① On some lighters, this number was stamped in error, should have been Patent 2032695.
- ② Zippo records indicate an overlap of bottom stamp configurations from 1949-1957.
- ③ Some lighters produced between 1955-57 were date coded; however, specifics remain unclear.
- ④ In 1979 an error was made in the date code. One of the slash marks was removed from the left of the Zippo trademark instead of being removed from the right; thus the code read: / // . This date code error was corrected within the same year to read: // /
- ⑤ Effective July 1, 1986 the dot and slash system was replaced by year / month code. Year is coded by Roman numeral; letter designates month (A=January, B=February, etc.)
- ⑥ Beginning in 2001, the Roman numerals indicating the year were replaced with numbers corresponding to the last digits of the year of manufacture. The first Zippo BLU® butane cases were made in 2005. The date code is the same format as regular windproof lighters.
- ⑦ *Code is subject to change without notice.

Slim Lighter Identification Codes

Slim lighters were first introduced in 1956, with a flat bottom and no date code. The first markings were added in 1957 and overlapped into 1958. From 1957-1965 the code configuration on the slim lighters differed from the regular lighters. From 1966 on, the configuration has been the same.
