The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof lighter. The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe.

Upgrade to pipe lighter recommended. Look for this symbol next to models that would pair well with a pipe lighter insert.

Any full size lighter may be ordered from the factory with a pipe lighter insert. Pipe lighter inserts are not sold separately, and must be fit to the lighter at the Zippo factory to ensure it meets our quality standards. When ordering, add PL to model number and \$1.50 to the retail price.

Zippo's classic Brushed Chrome finish takes on a new look! Directional brushing results in creative design patterns with the enduring appeal of traditional brushed chrome, but with a fresh new perspective. Sides of the directional brushed lighters are tumbled rather than high polish. See Signature Styleguide on pages 70 - 71 for customization options.

One of Zippo's most popular finishes for nearly two decades has been fortified to about 1.5 times its original weight. Meet the new Armor version of Antique Silver Plate.

SIGNATURE STYLEGUIDE : Methods available to customize Zippo product

ENGRAVE

Auto Engrave

The crisp, clean jewelry look of auto engraving has become one of the most popular methods of customization. Any Zippo pocket lighter, when returned to our factory, will be put in first class mechanical condition free of charge, for we have yet to charge a cent for the repair of a Zippo pocket lighter, regardless of age or condition. The finish, however, is not guaranteed.

This guarantee gives you specific legal rights and you may also have other rights which vary from state to state. Other Zippo products carry their own specific warranties.
