SUPREME HEADQUARTERS
ALLIED EXPEDITIONARY FORCE

Soldiers, Sailors and Airmen of the Allied Expeditionary Force!
You are about to embark upon the Great Crusade, toward
which we have striven these many months. The eyes of
the world are upon you. The Hopes and prayers of liberty-
loving people everywhere march with you. In company with
our brave Allies and brothers-in-arms on other Fronts,
you will bring about the destruction of the German war
machine, the elimination of Nazi tyranny over the oppressed
people of Europe, and security for ourselves in a free
world.

Your task will not be an easy one. Your enemy is well
trained, well equipped and hardened. He will
fight savagely.

But this is the year 1944! Much has happened since the
Nazi triumphs of 1940-41. The United Nations have in-
flicted upon the Germans great defeats, in open battle,
man to man. Our air offensive has seriously reduced
their strength in the air and their capacity to wage
war on the ground. Our Home Fronts have given us an
overwhelming superiority in weapons and munitions of
war, and placed at our disposal great reserves of trained
fighting men. The tide has turned! The free men of the
world are marching together to Victory!

I have full confidence in your courage, devotion to duty
and skill in battle. We will accept nothing less than
full Victory!

Good Luck! And let us all beseech the blessing of Al-
mighty God upon this great and noble undertaking.

LA CALAVERA

Texture Printing

La calavera, an intricately decorated skull art celebrating life and what lies beyond death, has been an important form of art in Mexican culture as far back as the Mayan and Aztec civilizations. Also referred to as a sugar skull, for the candies decorated to resemble las calaveras, it emerges in 3D from the surface of a White Matte lighter through Zippo's Texture Printing process. Each decorative element can be seen and felt on this show-stopping design.

BUY ONE. PLANT ONE.[®]

REPEAT 100,000 TIMES.

Zippo has partnered with Woodchuck USA to create wooden laser-cut emblem designs that will help restore and protect the forests of the world. Through the Buy One, Plant One initiative, for each lighter purchased, a tree is planted. Each lighter comes with a unique code that can be used to learn about the tree planted, its location, and the direct positive impact this purchase is having on this planet.

Set for Q3, Zippo is launching a global marketing campaign featuring these lighters and our goal to plant 100,000 trees. We will take our worldwide audience deep within the wild spaces where, together with Woodchuck USA, Zippo is helping restore natural habitats, provide environmentally friendly local jobs, support American manufacturing, and preserve the planet for future generations. Expect massive media attention, focused advertising, in-store and social media messaging devoted to this campaign. Details on the campaign launch and support materials for distributors, wholesalers, and retailers coming soon.

Variations in woodgrain and coloring make each Woodchuck lighter unique.

Zippo introduces the natural beauty of Woodchuck emblems to the color-shifting sheen of a High Polish Green lighter. The mahogany wood emblem features a Zippo flame cutout that reveals an undulating laser-engraved pattern on the lighter surface.
